

# FLOOR SHOW

*Rugs makes a room sing, adding softness and texture as well as colour. Many companies let you take a rug home to try so do ask, it's the best way of finding out if the design works in a room*

## WHAT THE DESIGNERS SAY

**Charu Gandhi** at *Elicyon Design Studio* suggests there is a move away from the formality and tradition of rectangular designs. 'Rugs with deconstructed edges bring a playful abstraction to a space and are making their way into our projects.' (*elicyon.com*).

Rug designer **Luke Irwin** is working on interesting geometric patterns and designs with curves. 'They have an understated chic about them that just quietly underlines everything else in a room.' (*lukeirwin.com*)
